

# Historical Society Presents Special Veterans Day Program

On November 10th the Brighton Township Historical Society presented their annual Veterans Day Program. Mr. Gary Augustine gave a fantastic presentation on the LST (Landing Ship/Tank). The presentation covered the LST's history from conception through design, construction and deployment.

These ships were designed to land battle ready tanks, vehicles, soldiers and supplies onto enemy beaches during WWII. During that period the American Bridge Company built many of them right here in Beaver County in Ambridge.

Watch for announcements on future programs of the Historical Society.

*Left: Gary Augustine presentation at Two-Mile Run.  
Below: Thomas Hart Benton's painting of launching of LST at Ambridge.*

## Township Continues Support of Library

The Township has allocated a \$26,000 contribution to the Beaver Area Memorial Library in the 2016 budget. Brighton Township has more library card holders than any municipality utilizing the services of the library. During the year the library provides many programs and classes for both children and adults. At the library you can also enjoy the latest bestseller, check out a favorite movie on DVD, download an eBook, download an audiobook, read a newspaper or magazine, get free wireless access and many other opportunities. Check out their wide ranging opportunities – there is something for everyone.

We thank the library's staff and Board of Directors for their efforts and hard work in providing the library's many services to our residents. Please consider making a donation of your time and/or money to the library. The library is located at 100 College Avenue, Beaver. You may contact them at (724) 775-1132.

# SAVE THE DATE

## Upcoming Events

Watch for more info on the Township signs, e-news or Brighton Township website: [brightontwp.org](http://brightontwp.org)

### JANUARY 30

**Ice Fishing Derby, Brady's Run**  
Coordinated by BT Parks & Rec Board

### FEBRUARY 8

**Annual MS4 Presentation**  
During Regularly Scheduled Board of Supervisors Meeting

### FEBRUARY 14

**Family Ice Skating, Brady's Run Ice Arena**  
Coordinated by BT Parks & Rec Board

### MARCH 5

**Beaver Library Annual Soup Luncheon**  
Held at the Library from 11 a.m. to 2 p.m.  
Dine in the library's Community Room or take-outs are available after 1 p.m.

#### Menu

Soup and bread: \$3.00  
Desserts: \$3.00  
Beverages: 50¢

The event is sponsored by the Friends of the Library. For more information, call the library at (724) 775-1132.  
**Come join us for lunch!**

#### Township Supervisors

**John Curtaccio, Chairman**  
**James E. Equels, Sr., Vice Chairman**  
**Mark Piccirilli, Supervisor**  
**Bryan K. Dehart, Manager**  
**Harold F. Reed, Jr., Solicitor**  
**Lennon, Smith, Souleret Engineering, Inc. Township Engineer**

#### Municipal Authority

(724) 774-4800  
**Kerien Fitzpatrick, Chairman**  
**Jack E. Erath, Vice Chairman**  
**Gordon R. Sheffer, Ph.D., Secretary**  
**Jeffrey S. Maze, Treasurer**  
**Michael L. Keeliher, Assistant Secretary/Treasurer**

#### Sewage Authority

(724) 774-4800  
**Jeffrey S. Maze, Chairman**  
**Jack E. Erath, Vice Chairman**  
**Kerien Fitzpatrick, Secretary**  
**Mark Piccirilli, Treasurer**  
**Gordon R. Sheffer, Ph.D., Assistant Secretary/Treasurer**

## Fall Festival a Huge Success!

Despite the cold weather the Fall Festival at Hardy Field this past October was a huge success with large crowds throughout the afternoon. The hay ride and pumpkin patch were especially popular with children dashing across the field to find their favorite pumpkin for decorating. Many vendors participated to provide many opportunities for interactive

fun. Several local bands were on stage to entertain the crowd. The members of the Parks and Recreation Board are already planning next year's Fall Festival, making this an annual family community event.

SUPPORT OUR VOLUNTEER FIRE DEPARTMENT BY ATTENDING FISH FRIES

## Fish Fry Dates

**January 15 • February 5, 12, 19 & 26**  
**March 4, 11, 18 & 25 • April 1 & 15**

**Firemen's Social Hall**  
**5400 Dutch Ridge Road**  
**4:00 P.M. – 7:00 P.M. Takeouts Available**

# 4th Quarter and Final Earned Income Tax Returns

4th Quarter returns for the earned income tax are due by January 31st and Final Returns are due by April 15th. Employed residents of Brighton Township are subject to a one percent (1.0%) tax on gross earnings. This tax is paid to the Beaver Area School District and Brighton Township at 1/2 of 1% each. The tax must be paid quarterly to avoid penalty. Failure to file a final return, even when no tax is due, makes individuals liable for penalty. Upcoming payment schedules:

## EARNED INCOME PERIOD

4th Qtr: October, November, December  
Final Return - Verification Needed

## PAYMENT IS DUE

On or Before January 31st  
By April 15th

The EIT Collector for all of Beaver County is Berkheimer. 4th Quarter 2015 estimated payments and Final payments/returns are to be sent to Berkheimer. Forms can be obtained from the Berkheimer web site at [www.hab-inc.com](http://www.hab-inc.com). They can also be reached at 1 (866) 701-7206.

**The PSD Code for Brighton Township and Beaver Area School District is: 040303**

## Notice

If you are self employed, work out of state or are a federal employee you are required to pay the tax quarterly or be subject to additional penalty, interest and costs.

## Employer Obligations Under Act 32

First, all employers within Brighton Township should be registered with Berkheimer.

Second, employers are to fill out a Residency Certification Form for each of their employees and have it signed by the employee. Employers retain this form for their records. The employee must provide updated information, sign and date a new form upon change of address.

Third, send withheld taxes for all employees to Berkheimer. The Berkheimer web site is [www.hab-inc.com](http://www.hab-inc.com). They can also be reached at 1 (866) 701-7206.

## Free Christmas Tree Disposal at Yard Waste Site

Christmas trees are an excluded item in the Township's refuse collection contract. However, residents can drop-off Christmas trees at no charge at the Township's yard waste site located at 1250 Brighton Road. Trees must be removed from any tree bag and all tinsel or other decorations must be removed.

## Berkheimer Appointed to Collect Per Capita Tax

Berkheimer has been appointed as the Per Capita Tax Collector effective with the 2015 Per Capita Tax Billing. Berkheimer has sent a Per Capita Tax bill to each resident for both the Brighton Township and Beaver Area School District Per Capita Taxes. You will no longer receive a Per Capita Tax post card bill from the elected tax collector James W. Onuska.

Instead, the billing was mailed within an envelop and is a legal size sheet of paper. The bottom portion is perforated and is to be removed and returned with the tax payment to:

**Berkheimer Tax Administrator**  
**P.O. Box 25144**  
**Lehigh Valley, PA 18022-5144**

Calls for the Per Capita Tax should be directed to (610) 599-3141.

## Eagle Scout Project: Hardy Field

The Brighton Township community is the fortunate beneficiary of Connor Lamison's Eagle Scout project at Hardy Field. Connor completed several projects that have beautified the park. He planted hundreds of pachysandra starter plants as a ground cover near the newly constructed ADA ramp and walkway and other flowering plants. In addition, Connor planted new trees between the football and soccer fields that have been adorned with benches. And finally, the Hardy Field park entrance sign was landscaped with new plantings.

*Thank you Connor for the hours of planning, design and construction that went into this project!*

# Refuse & Recycling Program

## New Rates Effective January 1, 2016

Brighton Township's contract with J. Young Refuse for the collection of all residential refuse and recycling includes provisions for changes to the monthly collection charge based upon a fuel cost adjustment on a semi-annual (6-month) basis or if there is an escalation in the fees charged by the landfill/recycling center utilized by the hauler. Fuel cost is calculated on a specific formula included in the contract. Based upon the semi-annual adjustment the January 1, 2016 rate is as follows:

Base Rate July 1, 2015 to June 30, 2016	\$11.08
Tipping Fee Cost Adjustment calculated effective October 1, 2015	\$0.05
Fuel Cost Adjustment calculated effective January 1, 2016	(\$0.08)
Monthly Refuse Rate effective January 1, 2016	\$11.05
<b>Quarterly Refuse Rate effective January 1, 2016</b>	<b>\$33.15</b>

A one-time charge of \$0.15 will be permitted with the January 1, 2016 billing for the tipping fee increase effective October 1, 2015.

Remember that additional fees are assessed for services other than curbside collection (backyard or at door service where specific contract restrictions apply) or streets that were not specified for curb service in the bid contract.

**Mandatory Participation** – Each residential unit is required to participate in the contracted refuse and recycling collection program. Brighton Township is also mandated by

State law to provide curbside collection of recyclables to each residential unit. Township ordinance requires mandatory participation in these programs. As the contracted hauler provides the Township with the names and addresses of non-participants, notices will be sent. Continued non-participation can result in the filing of an enforcement notice with potential fines of not less than \$100 nor more than \$600, plus costs of prosecution, for each violation.

**Excluded Items** – Contract specifications require the collection of rubbish and other bulky waste. Bulky waste includes appliances, furniture, furnishings, rugs/carpet (when cut in lengths of not more than 4-feet and placed in rolls), toilets, and other items. However, there are items excluded from collection. Following is a list of items excluded from curbside collection as part of the contract. However, this list should not be considered as a final complete list, as there is always the chance that an unforeseen circumstance or item has not been considered. Refuse should be placed for collection in bags not exceeding 40 pounds or 40 gallons in size.

**Excluded items are:** Tires, Yard Waste, Christmas Trees, Construction Debris, Vehicle Parts or Batteries, Paints, Liquids or Fluids and Hazardous Wastes. Loose debris must be in a box or bag. The contractor will not be required to pick-up loose debris. No steel or iron posts or rods that may damage garbage packers. The contractor is not expected to dismantle items placed out for collection. Items specified as items to be separated for recycling are not to be commingled with refuse for the purpose of being discarded. Items containing Freon gas will not be picked up unless the gas or other cooling material has been properly removed in accordance

with applicable laws and proof is provided to the collector.

**Recycling** – Recycling is collected curbside every other week. Refer to the Recycling Calendar included with this newsletter to determine your collection week. Please use an easily identifiable green container for placement of the recycling. Holes should be placed in the bottom of the container for drainage. Recycling is mandatory under state law and enforceable by Township ordinance. Recyclable items that are prepared improperly, or are mixed with household refuse, will not be collected, or will be disposed of with the refuse. Each of you can help improve the success rate of the Township's recycling program.

**Special Note:** Please crush or flatten the large plastic containers. Otherwise they take up a lot of space and limit the volume of recycling that can be collected within the recycling truck.

### Size and Weight of Recycling Containers Restricted

A special vehicle is used for the collection of recycling that requires the collector to lift the containers above their head to dump into the collection vehicle. Therefore, it is important that the recycling containers are not too large or too heavy. Containers determined to be too heavy or bulky will not be collected.

A recycling can with lid can be purchased at the Township Office for \$10, lower than the actual purchase price. These containers are 20-gallons in size. Please use multiple containers when necessary.

## Increase in Waterline Breaks Expected During Winter Season

During the winter season waterline breaks occur more frequently, disrupting service to customers of the Municipal Authority. When this occurs, the Authority is unable to notify each household that water service will be temporarily shut off while repairs are made. When possible, the Authority will utilize the *Swift911™* system to notify residents of service termination during repairs. Please go to the Brighton Township website to learn more about the Emergency Notification System and how to update your contact information for this and related purposes.

If you notice running water or other unusual conditions along a road that you believe could be the result of a broken waterline, please contact the Municipal Office (724-774-4800) as soon as possible, or report the condition to the non-emergency police line (724-774-1789) outside of normal working hours.

The Authority takes action to expedite repairs to waterlines when a break occurs. However, prior notification to other utilities is required in advance of excavating. In addition, extremely cold or severe weather makes working conditions difficult and can

delay the repairs. We thank you for your cooperation and understanding when these breaks occur, and ask your help in keeping the employees safe by driving slowly through the construction zones.

After the repairs are made, Authority employees flush the water lines to clear them of any dirty water that can occur as a result of the waterline break. If you experience dirty water, run the cold water at the lowest point in your home (i.e. a basement laundry sink) until the water appears clear. Do not run the hot water, as this results in the dirty water passing through the hot water tank.

**RECYCLING IS EASY!**

**RECYCLABLE MATERIALS**

**All Paper**

**Manila & Brown Folders**

**Newspaper & Phone Books**

**Glossy Paper & Magazines**

**Junk Mail**

**Tin & Aluminum**

**Glass**

**Aseptic Containers**

**Plastic**  
All containers labeled #1-7

**How to Prepare Your Materials**

**Plastic Bottles and Jugs Only**

- All containers labeled # 1-7 are accepted!
- Rinse, flatten and securely fasten cap back on.
- Labels do not need to be removed.
- Containers that originally held oil or chemicals must be completely emptied and not contain any potentially hazardous material
- No plastic bags or buckets.
- Place in green recycling container with other recycling items.

**Aluminum, Bi-Metal & Tin Food and Beverage Containers and Aluminum Foil**

- Rinse and flatten or crush containers.
- Labels do not need to be removed.
- Place in green recycling container with other recycling items.

**Glass (Clear, Brown and Green Bottles and Jars)**

- Rinse.
- Labels do not need to be removed.
- Do not break glass.
- Do not include auto glass, light bulbs, porcelain, ceramic, plate glass or crystal.
- Place in green recycling container with other recycling items.

**Aseptic Containers (Milk Cartons)**

- Rinse and flatten containers.
- Place in green recycling container with other recycling items.

**Newspaper and Other Paper Products**

- Include newspaper, magazines, phone books, junk mail, and all other paper.
- Do not place in plastic bags.
- Cereal and cracker type boxes can be included – remove inner bags or liners and flatten.
- Place directly in green recycling container with other recycling items.

**Remember...**

- Place your recycling container at roadside on the same day as your regular garbage collection during the recycling weeks.
- Place recyclables directly into recycling container. Do not place items in separate bags or they will not be collected.
- Recover your recycling container promptly after collection.
- Green recycling containers are available for purchase at the Brighton Township Municipal Building, 1300 Brighton Road.

**NON-RECYCLABLE MATERIALS**

**Food Waste**

**Glass Pane & Pyrex**

**Food Containers**

**Ink/Toner Cartridges**

# Municipal Authority Waterline Replacement Project Update

As reported in earlier newsletters, the Municipal Authority has initiated a series of projects to replace prioritized sections of waterline to increase reliability in pumping mains, replace lines that experience frequent breaks, and to increase system hydraulic capacity. Additionally, limited pump station improvements are planned. These important improvements are pursuant to the Water System Master Plan and Study prepared by the Authority's consulting engineer.

The Authority has completed upgrades to the Gypsy Glen Pump Station, to include the installation of energy efficient VFDs and emergency power supply for use during power outages.

Surveys for waterline replacements have been completed and the Authority's consulting engineer is proceeding with the design phase and preparation of multiple permit applications required for the projects. Required permits include a Public Water Supply Permit, NPDES Permit and multiple Highway Occupancy Permits.

Construction contracts are expected to be awarded in early 2016 for a new waterline on Western Avenue between the intersections of Lynn Haven Drive and Dutch Ridge Road and North View Circle. Construction bids for a new waterline on Tuscarawas Road in the area between Dutch Ridge Road and Brighton Road/Sebring Road are pending receipt of required permits. Updates will be provided in future newsletters.

## Township Defers Road Paving Contracts Until 2016

The Township has deferred two Roadway Improvement contracts until 2016. The first contract is for roadway improvements and paving of the following:

ROAD / STREET	FROM - TO
Laurel Drive	Entire Length
Stokes Drive	Entire Length
Hill Drive	Entire Length
Evergreen Circle	Entire Length
Sebring Road	Aspen Drive to 520 Sebring Road

The second contract is for the scratch and leveling of Brady's Ridge Road from Livermore Drive to Beacom Drive and Pine Grove Road from Tuscarawas Road to 1430 Pine Grove Road. These roads will then receive an oil and chip surface.

In addition to these roadways the Township will be selecting additional streets that will be included in the 2016 road paving program bid early in the year.

# 2016 Brighton Township Recycling Calendar

**WHAT:** Clear, brown and green glass bottles and jars; aluminum, bi-metal and tin cans; aluminum (tin) foil; Plastic containers with the numbers 1 – 7 inside the recycling logo; newspapers and magazines.

**WHERE:** Place your recycling container in the same area where the garbage is picked up.

**WHEN:** Your regular garbage collection day during the recycling weeks shown below:

**ROUTE 1: Areas on and off of Dutch Ridge Road, Dawson Ridge and Gypsy Glen Road**

**ROUTE 2: Tuscarawas Road, from Dutch Ridge Road to Beaver**

For questions, contact J. Young Refuse: (724) 495-6199.

# Reducing and Eliminating Sources of Stormwater Pollution

As part of the requirements of the Township's Municipal Separate Storm Sewer System (MS4) permit, the Township continues to distribute public education materials, including the *When It Rains, It Drains* brochure printed and distributed within this newsletter. It is important to re-emphasize several of the items included in the brochure.

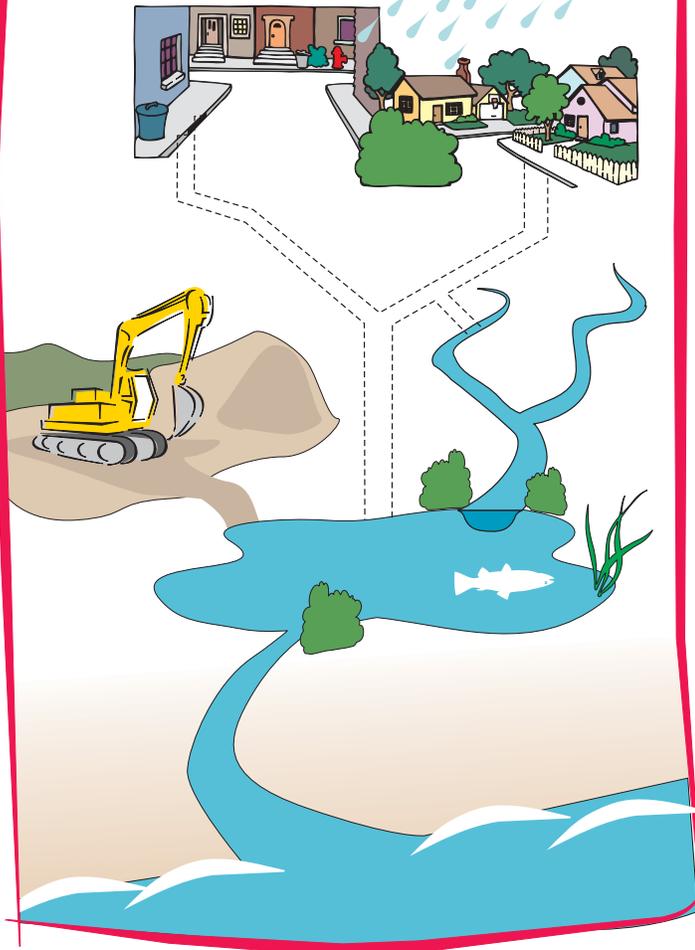

Runoff from rain or snow can pick up several kinds of natural and man-made pollutants and deposit them in our waterways. These are considered non-point sources of pollution and can include:

- Excess fertilizers or herbicides and insecticides used to treat your lawn.
- Viruses and bacteria from decomposing pet wastes.
- Oil, grease and other chemicals from your vehicles.
- Keeping debris out of storm sewers and drains.
- Properly disposing of household chemicals and not into storm sewers and drains.
- Wash your car on your lawn to prevent runoff – or use a car wash.
- Use low-phosphate or phosphate-free detergents.
- Clean up after your pets.
- Prevent soil erosion and runoff.
- Participate in litter prevention or clean-up programs.

You can help by:

## When It Rains, It Drains

Understanding Storm Water and How It Can Affect Your Money, Safety, Health, and the Environment

### What is Storm Water?

Storm water is water from precipitation that flows across the ground and pavement when it rains or when snow and ice melt. The water seeps into the ground or drains into what we call storm sewers. These are the drains you see at street corners or at low points on the sides of streets. Collectively, the draining water is called storm water runoff.

### Why is Storm Water "Good Rain Gone Wrong?"

Storm water becomes a problem when it picks up debris, chemicals, dirt, and other pollutants as it flows or when it causes flooding and erosion of stream banks. Storm water travels through a system of pipes and roadside ditches that make up storm sewer systems. It eventually flows directly to a lake, river, stream, wetland, or coastal water. All of the pollutants storm water carries along the way empty into our waters, too, because storm water does not get treated!

**Pet wastes left on the ground get carried away by storm water, contributing harmful bacteria, parasites and viruses to our water.**

**Vehicles drip fluids (oil, grease, gasoline, antifreeze, brake fluids, etc.) onto paved areas where storm water runoff carries them through our storm drains and into our water.**

**Chemicals used to grow and maintain beautiful lawns and gardens, if not used properly, can run off into the storm drains when it rains or when we water our lawns and gardens.**

**Waste from chemicals and materials used in construction can wash into the storm sewer system when it rains. Soil that erodes from construction sites causes environmental degradation, including harming fish and shellfish populations that are important for recreation and our economy.**

## What Happens When It Rains?

Rain is an important part of nature's water cycle, but there are times it can do more damage than good. Problems related to storm water runoff can include:

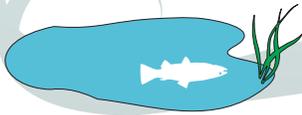

**Flooding caused by too much storm water flowing over hardened surfaces such as roads and parking lots, instead of soaking into the ground.**

**Increases in spending on maintaining storm drains and the storm sewer system that become clogged with excessive amounts of dirt and debris.**

**Decreases in sportfish populations because storm water carries sediment and pollutants that degrade important fish habitat.**

**More expensive treatment technologies to remove harmful pollutants carried by storm water into our drinking water supplies.**

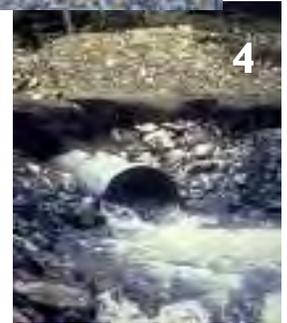

**Closed beaches due to high levels of bacteria carried by storm water that make swimming unsafe.**

We can help rain restore its good reputation while protecting our health and environment while saving money for ourselves and our community. Keep reading to find out how...

## Test Your Storm Sewer System Savvy!

What does the storm sewer system look like in your community? See if you can identify which pictures are part of the storm sewer system. (Answers are on the back.)

## Winter Road Maintenance Reminder

Township Ordinance regarding snow removal prohibits parking, or allowing to be parked, any motor vehicle or other vehicle on any public street within the Township following the deposit or accumulation of ice or snow of three (3) inches or greater in depth, until the snow has been completely plowed from the full width of the roadway. Violators are subject to a \$15 fine when ticketed by the Police Department, or towing when necessary.

Please remove vehicles from the street during any snow event that requires plowing or the application of treatment materials.

There is reduced visibility for the drivers during snow storms or at night. Maneuvering a plow truck through parked traffic makes the job of the plow truck driver much more difficult. Thank you for your cooperation.

## Restoring Rain's Reputation: What Everyone Can Do To Help

Rain by nature is important for replenishing drinking water supplies, recreation, and healthy wildlife habitats. It only becomes a problem when pollutants from our activities like car maintenance, lawn care, and dog walking are left on the ground for rain to wash away. Here are some of the most important ways to prevent storm water pollution:

- ◆ Properly dispose of hazardous substances such as used oil, cleaning supplies and paint—never pour them down any part of the storm sewer system and report anyone who does.
- ◆ Use pesticides, fertilizers, and herbicides properly and efficiently to prevent excess runoff.
- ◆ Look for signs of soil and other pollutants, such as debris and chemicals, leaving construction sites in storm water runoff or tracked into roads by construction vehicles. Report poorly managed construction sites that could impact storm water runoff to your community. (See the back of this brochure for contact information.)
- ◆ Install innovative storm water practices on residential property, such as rain barrels or rain gardens, that capture storm water and keep it on site instead of letting it drain away into the storm sewer system.
- ◆ Report any discharges from storm water outfalls during times of dry weather—a sign that there could be a problem with the storm sewer system.
- ◆ Pick up after pets and dispose of their waste properly. No matter where pets make a mess—in a backyard or at the park—storm water runoff can carry pet waste from the land to the storm sewer system to a stream.
- ◆ Store materials that could pollute storm water indoors and use containers for outdoor storage that do not rust

## Where To Go To Continue the Information Flow

Your community is preventing storm water pollution through a storm water management program. This program addresses storm water pollution from construction, new development, illegal dumping to the storm sewer system, and pollution prevention and good housekeeping practices in municipal operations. It will also continue to educate the community and get everyone involved in making sure the only thing that storm water contributes to our water is . . . water! Contact your community's storm water management program coordinator or the Pennsylvania Department of Environmental Protection for more information about storm water management.

**1. Ditch** – Part of the storm sewer system. Most people think that the system is just a series of underground pipes. It can also include ditches used to convey storm water from the land to a receiving lake, river, or stream.

**2. Fire Hydrant** – Not part of the storm sewer system. Water sprayed from fire hydrants is not storm water, but is allowed by law to enter the storm sewer system.

**3. Curb with Storm Drain Inlet** – Part of the storm sewer system. Many people do not realize that this is an opening leading to the storm sewer system. Anything going into this inlet (e.g., trash, leaves, improperly disposed of hazardous materials) travel directly to a receiving lake, river, or stream without being treated first. Many communities stencil storm drains with "Do Not Dump" messages to let people know.

**4. Storm Sewer Outfall** – Part of the storm sewer system. An outfall is where storm water drains from the storm sewer system into a receiving lake, stream, or river. If there is a flow from an outfall when it isn't raining, there could be a problem with the system or someone has used a storm drain for illegally disposing of materials.

**5. Toilet** – Not part of the storm sewer system. Wastewater from sinks and toilets in houses and businesses travel through a sewer system constructed to carry sanitary wastes. In some instances, older communities may have a combined sewer system designed to carry both storm water and sanitary waste.

**6. Septic System** – Not part of the storm sewer system. Homeowners use septic tanks to manage sanitary wastes on-site. Improperly maintained septic systems can leak and contribute pollutants to the storm sewer system, as well as directly to lakes, rivers, and streams.

**7. Roads and Other Paved Areas** – Not part of the storm sewer system. Roads and other hardened surfaces such as parking lots and sidewalks can accumulate pollutants (e.g., oil, grease, dirt, leaves, trash, pet wastes) that storm water eventually washes into the storm sewer system.

**8. Storm Drain Inlet** – Part of the storm sewer system. This is another example of what a storm drain may look like. Like the storm drain inlet shown in picture #3, anything that enters this drain will go directly to streams, rivers, and lakes without being treated first. It is important to recognize this as a storm drain to prevent it from being used as a trash can.

## Real Estate Tax Information

This is just a reminder for residents who have participated in the 2015 Beaver Area School Real Estate tax installment program. The third installment payment is due no later than December 31, 2015. All 2015 Brighton Township Real Estate taxes are also due by December 31, 2015.

The 2016 Brighton Township Real Estate Tax bills will be mailed on March 1, 2016. If a mortgage company does not hold your taxes in escrow and you do not receive your tax bill, please contact the tax collector.

Unpaid 2015 Beaver Area School District Real Estate Tax bills will be filed April 1, 2016.

The tax collection office is located in the lower level of the Municipal Building, 1300 Brighton Road. A drop box has been installed for your convenience. If you have any questions or concerns, please do not hesitate to contact James W. Onuska, Brighton Township Real Estate Tax Collector at (724) 774-2622.

**NOTE:** When mailing, please do not include your tax payments within the same envelope as your water & sewer payments. These items should be mailed independent of each other. Those utilizing bill payment services should also notify their bank of this requirement.

**The elected tax collector, James W. Onuska, holds office hours as follows:**

Tuesday: 4:00 p.m. – 8:00 p.m.

Wednesday: 9:00 a.m. – 1:00 p.m.

Thursday: 9:00 a.m. – 1:00 p.m.

Last two (2) Saturdays of each month of the discount (March & April):  
9:00 a.m. – 12:00 noon

*Personal appointments may be made by contacting the tax office.*

**Have a happy and safe holiday!**

## Please Support Your Local Volunteer Fire Department

The Brighton Township Volunteer Fire Department is 100% volunteer and depends upon the goodwill donations of our residents and businesses. One of the Brighton Township Volunteer Fire Department's primary fundraisers is the mailing of their annual request for donations mailed to each Township resident and business in the Fall. Each household should have received this letter during October. The members of the Department would like to thank everyone who contributed to the fund drive this year. However, many residents have not responded. Your donations are crucial to the operation of the Fire Department and ensure that they have the proper equipment to keep the public and members safe from harm. Please do your share and drop off your donation at the Municipal Building, make a donation online at [brightontwpvfd.org](http://brightontwpvfd.org) or mail to:

**Brighton Township VFD**  
84 Grange Road  
Beaver, PA 15009

The Department sends wishes for a safe and happy holiday to all our residents!

The Brighton Township VFD is recognized by State Senator Elder Vogel for serving the residents of Brighton Township for 75 years during the Department's October 10th open house. Fire Chief Joshua Curtaccio accepted the award from Senator Vogel on behalf of the Department.
